GPO AND PRINTERS NATIONWIDE AFFIRM STRONG JOINT BUSINESS ALLIANCES

GPO Releases Top 10 Contractor List for Calendar Year 2005

WASHINGTON—Now it's official... the U.S. Government Printing Office has released its annual compilation of the top 10 vendors for the 2005 calendar year.

In 2005 GPO aligned with businesses from coast to coast to meet the electronic and printing publishing needs of federal agency customers across America.

NPC Inc., Monarch Litho, Inc., and Gateway Press Inc., round out the top 3 contractors that supplied information products and services to Congress, Federal Courts, more than 130 Federal agencies and the American public last year.

"There are millions of dollars worth of contracts available to the private sector by competing for the opportunity to provide Federal Government agencies with needed digital and print information products and services. The businesses get a financial boost, the customer agencies receive superb results, and the taxpayer can rest assured the money is spent in the most cost-effective manner. It's a win-win for all," said Jim Bradley, Managing Director of Customer Services. "With new programs available like Quick Quote and our easy to use Contractor Connect, we are experiencing even greater success with our nationwide procurement program than ever before."

Here are GPO's Top 10 contractors for Calendar Year 2005:

The GPO has a long-standing tradition of partnering with private sector companies across the country to provide Federal Government customers with top of the line electronic and print-related information products and services.

With one of the nation's most successful procurement programs, the GPO procures between 600 to 1000 print related projects daily. A number of new options, designed to enhance the experience of doing business with GPO, have been added. To explore the wide range of products and services the GPO offers from printing and design solutions to web hosting please visit: www.contractorconnect.gpo.gov .

The GPO's core mission is to ensure that the American public has access to government information. The GPO is the Federal Government's primary centralized resource for gathering, cataloging, producing, providing, authenticating, and preserving published U.S. Government information in all its forms. GPO is responsible for the production and distribution of information products and services for all three branches of the Federal Government. In addition to publication sales, GPO makes government information available at no cost to the public through GPO Access (www.gpoaccess.gov), and through partnerships with more than 1,250 libraries nationwide participating in the Federal Depository Library Program. For more information about the GPO, please visit www.gpo.gov.
